Thank you for joining the exhibition space poster to hang your poster. Attachment systems are available on site.

1. 20 and 30 Ultrasoundographic criteria for the diagnosis of endometriosis: interobserver concordance
   Garcia-Velasco Juan Antonio, Spain

2. 6 years of experience in the treatment of patients with genital endometriosis with aromatase inhibitors
   Maria Yarmolinskaya, Russian Federation

3. A non-interventional study with dienogest 2mg to assess the quality of life in patients with endometriosis (DIVA study)
   Maria Yarmolinskaya, Russian Federation

4. A systematic review of endometriosis interventions: what is missing in the literature?
   Sony Singh, Canada

5. Aromatase expression and regulation is altered
   Adriana Mihai Malutan, Romania

6. Approaches to decrease blood loss in myomectomy
   Dilbar Najmutdinova, Uzbekistan

7. Advanced endometriosis associated changes in serum levels of interferons, chemokines and growth factors
   Andres Mihai Malutan, Romania

8. Approach megareter laparoscopic in the context of pelvic endometriosis
   Martinez Biosques Conception, Spain

9. Approach to decrease blood loss in myomectomy
   Diblar Najmutdinova, Uzbekistan

10. Aromatase expression and regulation is altered
    Ovalle Jennifer, Italy

11. Assessing the Patient-Reported Symptoms and Impacts of Uterine Fibroids: Development of Uterine Fibroid Daily Symptom Scale (UF-DSO) and Uterine Fibroid Impact Scale (UFS)
    Kamonthip Wichmann, Germany

12. Association between HSD17B1 rs650859 polymorphism and the risk of endometriosis in the Polish population
    Malgorzata Szczepanska, Poland

13. Benign metastasizing leiomyoma
    Silvia Copado Salido, Spain

14. Carcinoma of the ovary: analysis of a case series
    Yoo-Kyung Lee, Republic of Korea

15. Catamenial pneumothorax after uterine perforation
    Puerta Sanabria Jose Maria, Spain

16. Challenging hysteroscopic virtual reality simulation: how to score technical skills?
    Elodie Debras, France

17. Characteristics of clinic of fibroids in women with adenomyosis
    Guddiyan Babadjanova, Uzbekistan

18. Circulating microparticles levels in patients with endometriosis
    Jordina Munró, Spain

19. Circulating mirRNAs as potential biomarkers for endometriosis
    Petra Patiesky, Austria

20. Clinical effectiveness of endometriosis treatment in adolescent girls
    Gulzhaban Omorova, Kazakhstan

21. Clinical experience of long-term use of dienogest after surgery for ovarian endometrioma
    Kyungah Jeong, Republic of Korea

22. Clinical significance of melatonin and enzymes of the antioxidant system in patients with external genital endometriosis
    Natalya Ermolova, Russian Federation

23. Clinico-radiological correlation in endometriosis
    Puerta Sanabria Jose Maria, Spain

24. Comparison of pregnancy rate according to the presence of adenomyosis in unexplained infertility
    Joon Cheol Park, Republic of Korea

25. Complications associated with the surgical treatment of deep infiltrating endometriosis
    Guerra Raquel, Spain

26. Complications related to endometriosis during pregnancy
    Gemma Casals, Spain

27. Concurrent, prospective, analytical cohort study of endometriosis patients at Latina Hospital- DHA, DUBAI-U.A.E.
    Bindu Isaac, United Arab Emirates

28. Conservative surgical management for uterine adenomyosis
    Masato Nishida, Japan

29. Could the treatment with ulipristal acetate be an alternative to avoid fibroid’s surgery?
    Posadas Yabar David Eduardo, Peru

30. Decreased expression of progesterone receptor in endometriosis and possible role of peritoneal factor in progesterone resistance
    Sung Hoon Kim, Republic of Korea

31. DIE: three compartments
    Arana Itziar, Sapin

32. Dienogest demonstrates efficacy and safety for endometriosis treatment in Chinese patients: a double-blind, randomized, placebo-controlled, multicenter phase 3 study
    Dong Liying, Germany

33. Differential diagnosis features of adenomyosis caused by endometriosis, hemmorhinthes and pelvic inflammatory diseases
    Valentyna Sklyarova, Ukraine

34. Difficulty in diagnosis of abdominal wall endometriosis
    Kei Kei Nagira, Japan

35. Effect of dienogest for the treatment of recurrent endometrioma
    Jae Hoon Lee, Republic of Korea

36. Effect of elliptic acid and retinoic acid on endometrial cell growth
    Barañao Rosa Inés, Argentina

37. Effect on leiomyoma by treatment of Korean traditional medicine
    Lee Dae-Hyung, Republic of Korea

38. Effects of long-term use of dienogest for endometriosis on bone mineral density
    Dong-Yun Dong-Yun Lee, Republic of Korea

39. Efficiency and safety of ethanol sclerotherapy for recurrent endometriomas
    Anne-Sophie Gremaux, France

40. Endometriosis and activation memory markers in Treg cells: Treg cells in peritoneal fluid of patients with endometriosis express surface molecules that probably decline T cell response
    Bárbara Yasmin Guevoghlian-Silva, Brazil

41. Endometriosis and adverse pregnancy outcomes: systematic review and meta-analysis
    Hélène Minebois, France

42. Endometriosis impact on fertility
    Sofia Belaatri, Morocco

43. Endometriosis of the diaphragm: a pirouette or a traversale?
    A. Schwander, Switzerland

44. Endometriosis-related catamenial pneumothorax: analysis & cases
    Carmen Alvarez, Spain

45. Epigenetically regulated genes in endometriosis stromal cells
    Iveta Yotova, Austria

46. Estradiol induces over-proliferation in adenomyotic cells of the junctional zone through hyper-activation of RhaRAOILK signaling pathway
    Sun Fu-Qing, China

47. Evaluation of endometrial resection in the treatment of dysfunctional uterine bleeding
    Benmoumen Yassine, Algeria

48. Evaluation of the hormonal intra uterine device in the treatment of dysfunctional uterine bleeding
    Fadlallah Abou-Bekr, Algeria

49. Evaluation of transvaginal hydrolaparoscopy in subfertile women: feasibility and prognostic capacity
    Mianne van Kessel, The Netherlands

50. Evaluation of uterine scarce before delivery
    Tomas Falt, Czech Republic

51. Experience of a referral tertiary center with ulipristal acetate before fibroid surgery
    Carmen Alvarez, Spain

52. Expression of neurogenic mediators in adenomyosis
    Claudia Tosti, Italy

53. Family history of endometriosis is a risk factor for endometrioma recurrence after laparoscopic surgery
    campo Vincenzo, Italy

54. Fatir triple therapy of Adenomyosis
    Ali Farid Mohamed Ali, Egypt

55. Genetic mutations system of hemostasis in the pathogenesis of pre-ectopias
    Yevdokymova Viktoriya, Ukraine

56. How we treat endometriosis in Russia
    Alexander Popov, Russian Federation

57. Hysteroscopic treatment of symptomatic isthmuscele: an Algerian retrospective experience
    Nefissa Lakhdara, Algeria

58. Identification of new markers in deep endometriosis lesions by proteomic analysis techniques
    Lidia Hyan Ju Myung, Brazil

59. DD1 participates in the differentiation of Treg in endometriosis
    Chunyan Wei, China

60. Immunohistochemical features of the endometrium in women with combined forms of endometriosis
    Tatarchuk Tetiana, Ukraine
Thank you for joining the exhibition space poster to hang your poster. Attachment systems are available on site.

1. Implication of Epstein-Barr virus genome in cancer and quantification of viral load in Algerian frozen tissue of breast cancer
   Derkaoui Dalal Kheira, Algeria

2. Incidental finding of right colonic endometriotic polyp
   Erick Petit, France

3. Increased expression of pattern recognition receptors and nitric oxide synthase in peritoneal fluid of women with endometriosis
   Yong Jeon Choi, Republic of Korea

4. Infritiative ovarian endometriosis: a new entity
   Luiz Flavio Fernandes, Brazil

5. Innovative aspects of pathogenetically reasonable treatment of adenomyosis and external genital endometriosis
   Natalya Ermolova, Russian Federation

6. Intestinal obstruction in a patient with endometriosis
   Zurimendi Gorrochategui Itxaso, Spain

7. Intestinal resection for deep infiltrating endometriosis: experience in a tertiary referral center
   Carmen Álvarez, Spain

8. Intraoperative efficacy of three months of ulipristal acetate prior to abdominal surgery
   Carmen Álvarez, Spain

9. Intraprostatic inflammation enhances the formation of endometriosis in murine model
   Kaoru Keyama, Japan

10. Investigation of parasitic infestations in patients with endometriosis and infertility
    Valentyna Sklyarova, Ukraine

11. Isolated plexiform neurofibroma, vaginal localization in an adolescent
    Amel Dammene Debbih, Algeria

12. Levonorgestrel- releasing IUD Mirena - the best solution for a pain syndrome in endometriosis
    Karen Jhukaykan, Armenia

13. Long-term efficacy of laparoscopic or robotic adenomyectomy with or without medical treatment for severely symptomatic adenomyosis
    Yoon Lee, Republic of Korea

14. Long-term treatment with dienogest in clinical practice: a retrospective analysis of efficacy and safety
    Thomas Roemer, Germany

15. Macrophage promotes growth and invasion of endometrial stromal cells via IL-24 suppression in endometriosis
    Jun Shao, China

16. Medical management on deep infiltrating endometriosis
    Ríos Lorenzo Macarena, Spain

17. Medical treatment of Deep Infiltrating Endometriosis (DIE): outcomes after diagnosis by magnetic resonance (MRI)
    Alejandro Correa-Paris, Soain

18. Microparticle levels after ovarian cystectomy versus laser vaporization in the laparoscopic treatment of ovarian endometriomas. results of a preliminary trial
    Martinez-Zamora Maria-Angelas, Spain

19. Müllerian inhibiting substance and calcitriol induce growth inhibition and apoptosis in human endometrial stromal cells in endometriosis
    Jung Yeon Soo, Republic of Korea

20. Myofibroblasts and smooth muscle-like cells in adenomyosis and superficial endometriosis
    Sylvia Mechsner, Germany

21. New approaches to the early detection of endometrioid ovarian cysts recurrence
    Susanna Gasparian, Russian Federation

22. Orthotopic ovarian transplanation using N-HEXYL-2-Cyanoacrylate
    Gemma Casals, Spain

23. Pregnancy outcomes in patients with deep infiltrating endometriosis with or without associated adenomyosis
    Silvia Escura, Spain

24. Prevalence of pelvic pain and quality of women’s life
    Aikerm Dochshanova, Kazakhstan

25. Primary umbilical endometriosis: about four cases and literature review
    Fatima Zahra Lamine, Morocco

26. Prognostic factors of adenomyometry using double flap method in patients complained of severe dysmenorrhea
    Rhee JH Park JC, Republic of Korea

27. Proinflammatory cytokines and polycystic ovary syndrome
    Tataruch Tetiana, Ukraine

28. Purinergic signalling in the contents of endometriomas
    Carla Trapero, Spain

29. Quality of life in endometriosis: translation and psychometric evaluation of the French version of Endometriosis Health Profile-30
    Some epidemiological aspects of uterine fibroids
    Pradeesha Prad, Australia

30. Radical surgery for endometriosis: analysis of quality of life and surgical procedure
    Jose Luis Muñoz González, Spain

31. Red’s syndrome
    Silvia Copado Salido, Spain

32. Reproductive disorders in women with uterine myoma
    Laiyga Abdullaeva, Uzbekistan

33. Restectoscopic endometrial ablation does not adversely affect long-term clinical outcomes in women with atypical endometrial hyperplasia
    Arwa Arwa Shamrami, Saudi Arabia

34. Role of hormone therapy after primary surgery for endometrioma: a multicenter retrospective cohort study
    Seek Ju Seong, Republic of Korea

35. Sexual function change after conization for cervical dysplasia
    Chan Hee Jin, Republic of Korea

36. Sigmoid cancer metastatic occlusive: A very rare clinical case
    Fatima Zahra Lamine, Morocco

37. Assessment of safety and efficacy of treatment with dienogest in women with adenomyosis and superficial endometriosis
    Luiz Flávio Fernandes, Brazil

38. The association between interleukin-10 ([IL-10]-592C/A, -819T/C, -1082G/A genetic polymorphism and endometriosis
    Andrei Mihai Malutan, Romania

39. The Endometriosis Health Profile-30 (EHP-30), as a new clinical marker of deep infiltrating endometriosis
    Javier García-Oms, Spain

40. The impact of ulipristal acetate as a pre-treatment on hysteroscopic myomectomy feasibility
    Gracia Meritxell, Spain

41. The journey of endometriosis patients seek care: Indonesian experience
    Andon Hestiantoro, Republic of Indonesia

42. The new ways to the ovarian reserve’s preservation of patients with endometriomas and infertility
    Natalia Kuzmina, Russian Federation

43. The public and endometriosis: an Australian perspective
    Zhiling Zhu, China

44. Treatment of endometriosis recurrence: clinical case
    Pradeesha Prad, Australia

45. Ultra long protocol and ethanol sclerotherapy before IVF for endometriomas compared to IVF treatment for women with all stages of endometriosis
    Anne-Sophie Greemeau, France

46. Use of synthetic mesh for surgical treatment of rectovaginal endometriosis
    M. Pilar Marin Sánchez, Spain

47. Vulvar leiomyoma
    Rios Lorenzo Macarena, Spain

48. Which factors are associated with pregnancy after in vitro fertilization in infertile patients with posterior deep pelvic endometriosis? Christyné Rubod, France
